1080P TF card(Micro SD) recording time(hour):
Micro SD card (TF) Support up to 64G or 128G

TF card slot

4G	9 hour
8G	18.2 hour
16G	36.4 hour (1.5 days)
32G	72.8 hour (3 days)
64G	145.6 hour (6 days)
128G	291.2 hour (12 days)

Applications

Do you have this kind of trouble ?

Worry about children
at home ?

Elders at home
without
someone taking
care of ?

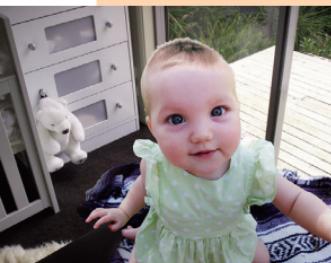

Much more than that: how to select such a device properly ? Low quality products and knockoffs flooded the market and you will even need engineering team for installation and wire connection ! It's such a trouble that I cannot tackle with.

Only a step of changing a bulb

Applicable scenes: Home, small shops, halls, offices,
accounting rooms, computer rooms, garages,
store, houses without guard.

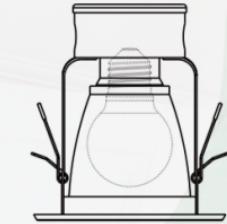

Faster DIY P2P Camera

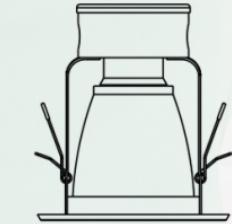

E27 or MR16 lighting power connector

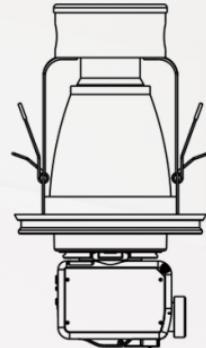

STEP 1

STEP 2

STEP 3

U23 App Interface

1. Download the mobile app named "U23" from Apple store or Google play.

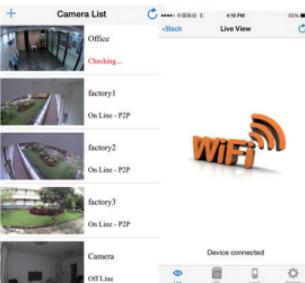

2. Set the U23 switch on AP. Power on the U23 with blue light on.

3. Search wifi named "Smart Cam-TransFluent" from mobile setting, selected it. Then return to U23 app.

1. Touch to select camera

2. Touch on the orange WiFi icon

3. Access to the live view

4. Click into the app U23 icon then you will see your camera shows on. Long press it until Edit menu comes up.

App support to add upto 10pcs U23 into the Camera list.

Long Press

4. Touch to make a settings

5. Touch Wi-Fi To... to set U23 connect to the router

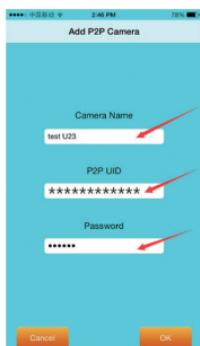

5. Then you will see:

Camera name: just set whatever you like. (Not more than 8 characters.)

P2P UID: *****don't do anything to it. (This is the only one UID for long range access.)

Password: tf1234

(Password can be reset by user, please keep your new password in a save place after changed.)

6. Touch to make a settings

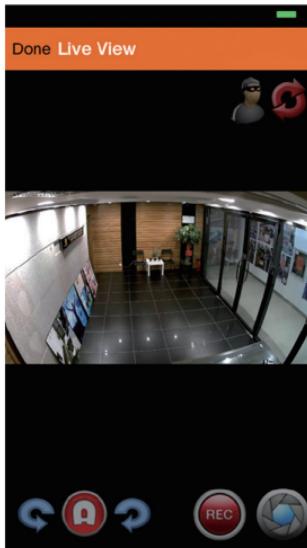

P2P UID is 2 years period starts at the time of product's original purchase by the first end-user

U23 App Interface

6. Automatic search available WiFi , Enter the password for the WiFi to access save and apply.

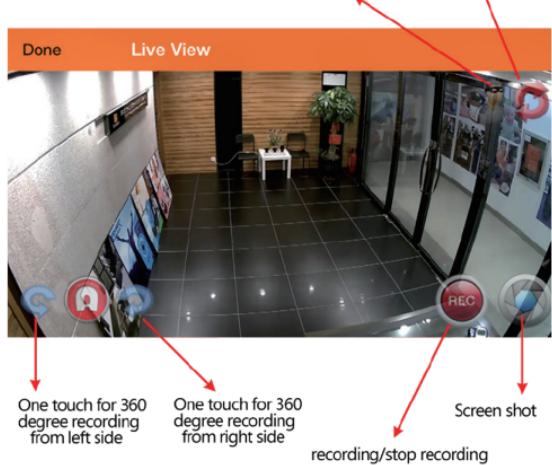

Screen Vertical

7. Switch AP to Client after wifi setting done.
PS: Please remember to switch back to AP when you doing point to point setting.

Screen Horizontal

U23 App Interface

8.U23 P2P Camera will automatically connected to your default wifi. Now P2P setting is done.

Touch and move to control the direction move.

① Playback, delete or download the Micro SD card's contents.

② Playback or delete the contents been downloaded in the app.

③ U23 P2P Camera Settings List

Touch and hold the file which you want to download to your local mobile. Check the files which you have been downloaded to your local mobile U23 app. And you can touch and hold the file which you want to delete.

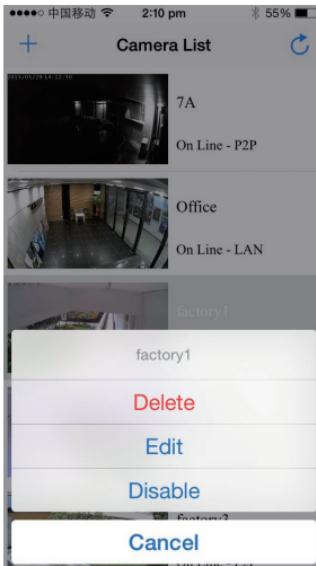

Device Disconnected:

Please touch the refresh icon  to connect again.

Or touch the back icon goes back to the Camera List then refreshes the camera until shows online.

How to remove the camera from the camera list:

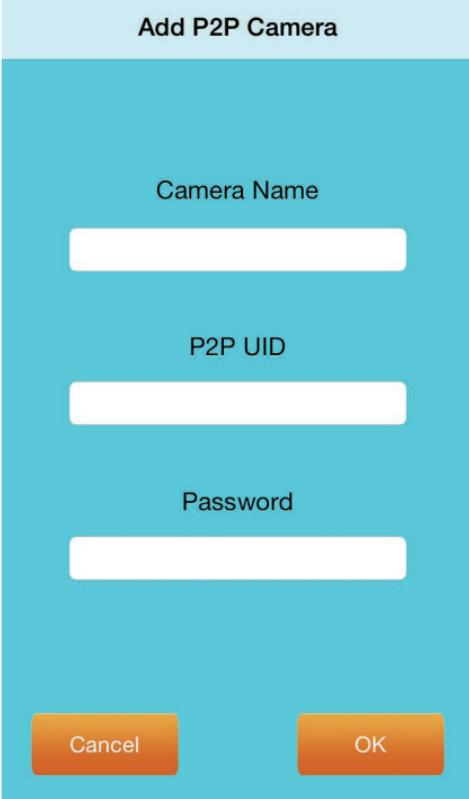

Touch and hold the camera which you want to remove until the delete selection comes up.

Share your P2P UID account to your family or friends:

••••○ 中国移动 10:42 am * 10% 🔋

••••○ 中国移动 12:05 pm * 59% 🔋

Download the U23 app, Touch the add icon  from the Camera List, enter the U23 P2P UID and password. Then you can access to the U23 by long range visit.

Frequently asked questions:

1. Why the camera so hot? Is it dangerous ?

The working area temperature is -10~50°C, the U23 Camera both side with metal plates for heat release, so the camera surface temperature is around 75°C. Once the heat release, the U23 Camera will stable for long term use and safe.

2. How to download the local files from U23 app to PC ?

For iPhone or iPad please use your iTunes for download the files from U23 app. For Andriod please just connect your mobile to your PC then you will found the folder.

3. Why I can't see recording files when I connect the U23 by USB to PC ?

The USB port from the common connector is just for power supply, not for data transfer.

4. How many U23 cameras can add in the U23 app's camera list ?

Maximum 10pcs U23 cameras can add in the camera list.

5. How many people can connect the same U23 camera at the same time ?

Live viewing for up to 10 clients

6. Why have noises when direction moves ?

Because of the infinity 360 degree move motor is moving.

7. Why the recording video file is 1080p 15fps not 1080p 30fps ?

Resolution setting on HD preview, video file is 1080p 15fps. Resolution setting on VGA preview, video file is 1080p 30fps.

8. Why sometimes live view image is not stable? Why the live view have mosaic ?

U23 uses cloud technology to handshake the U23 and smart phone. It has seldom chances to miss the handshake and please touch the "refresh" icon in U23 app to handshake again.

9. Does U23 have alert function ?

Video Motion detection is available.

10. How long the P2P UID can be use for the peer to peer long range access ?

2 years period starts at the time of product's original purchase by the first end-user. You can contact Transfluent Technology Limited to extend the period by prepay.

11. Why the video image looks purple to red colour?

Because of the IR-CUT didn't switch to the right position, please set the IR-Cut manually On to Auto or Auto to On from the U23 app then colour will getting back to usual.

12. Does the U23 have zoom ?

Yes, you can, zooming in or zooming out by using your 2 fingers to slide on the screen during live view.

Warranty Card

Warranty Period

The warranty period starts at the time of product's original purchase by the first end-user. The product may consist of several different parts and different parts may be covered by a different warranty period (hereinafter "Warranty period").

Warranty period: One year (366 days) for the U23 P2P Smart Camera and the common connector, and Six (6) months for the accessories (limited to E27 Lighting Power Connector, MR16 Lighting Power Connector, Infrared lights Ring, USB Cable and Travel Adaptor).

Warranty conditions

1. Repairs under warranty period shall be carried out by the company authorized personnel only.
2. Warranty will be applicable only after inspection of the unit and clearance of condition by the authorized factory.
3. Transfluent's obligation under this warranty shall be limited to repair or providing replacement of part/s only. The maximum claim/s if entertained by Transfluent will be subject to the maximum retail price of the product purchased or the purchase price, whichever is lower.
4. The Limited Warranty does not cover:
 - (a) Normal wear and tear
 - (b) Defects caused by rough handling
 - (c) Defects or damages caused by misuse of the Product, including use that is contrary to the instructions provided by Transfluent
 - (d) Other acts beyond the reasonable control of Transfluent
 - (e) Defects or alleged defects caused by the fact that the product was used with, or connected to, any product, accessory, software and/or service not manufactured, or supplied, by Transfluent or was used otherwise than for its intended use. Defects can be caused by viruses from your or a third party's unauthorized access to services, other accounts, computer systems or networks. This unauthorized access can take place through hacking, password mining or through a variety of other means.
5. The Limited Warranty is not enforceable if the Product/accessory is opened, modified, or repaired by anyone other than an authorized factory, if it is repaired using unauthorized spare parts or if the Product's P2P UID number have been removed erased, defaced, altered or are illegible in any way and this shall be determined in the sole discretion of Transfluent.
